EDUCATION

B.S.
Civil Engineer.
National University of Civil
Engineering (GPA 7.5/10).
 2011 – 2016

SKILLS

• Programming languages:

C#
 Javascript
 VB.net
 SQL
 HTML
 CSS/SCSS

• Technical skills:

Reactjs
 Redux
 Nodejs
 Expressjs
 Bootstrap
 AWS
 MongoDB
 MySQL

• Other skills:

Git
 Photoshop
 MS Office

• Soft skills:

Adaptability
Eager to learn
Self-study
Problem solving
Visual thinking
Leadership
Time management
Enthusiasm
Creativity
Patience

ABOUT ME

- Full-stack development excites me a lot, but I prefer Frontend to Backend a little.
- The most outstanding advantages: self-study ability, having high adaptability and working under intense pressure.
- My portfolio website here: <https://khoatran25.vercel.app/>

WORK EXPERIENCE

T&T Design, Synckey (Japan), Hanoi

Mar 2020 – Nov 2022

Full-stack Web Developer

Aug 2020 – Nov 2022

- Programming websites as a frontend or a full-stack web Developer by Javascript, Reactjs, Redux, Nodejs, Expressjs, MySQL, MongoDB, AWS, GCP...
- Building RESTful APIs and building responsive Single-Page-Apps (SPA).
- Join to build a Real-time Application RTAs (based on a WebSockets)
- Build reusable components by Reactjs, Redux for team.
- Taking part in Frontend Optimization (lazy load, preload, wasted renders, ...)
- Programming UI/UX Frontend (from Figma) of some main routes and modules.
- Building directly features such as login, authorization, multi-language, search engine.
- Researching AWS and give out workflows to store company's database on AWS.
- See more details of projects on my github repo.

Sub-leader, .Net Developer

Mar 2020 – Aug 2020

- Taking part in projects about BIM (Building Information Management) software in Construction industry by C#, .NET framework, VB. Net, MySQL, ...
- Checking, tracking, and covering that workflows always go the right way, then reporting to Leader weekly.
- Be charge of discussing with teams and building calculation algorithms of software.
- Working with Leader to decide workflows of add-ins and software.
- Programming UI/UX of calculation modules and tools to manage the database.

NDC Consulting, Hanoi

Feb 2019 – Feb 2020

.Net Developer

- Programming windows forms of software to calculate cost estimation in the construction domain by C#, VB. Net.
- CRUD data from database (SQL Server, MS Access).
- Fix bugs and maintain throughout 2 real .Net projects.
- Programming VBScript add-ins to interact with database operations (SQL server, MS Excel, MS Access, windows folders).

Construction corporations, Hanoi

Jun 2016 – Feb 2019

.Net Developer/Civil Engineer

- Write tools/mini-software (by .Net) to calculate and optimize tasks and management processes in construction domain.

LANGUAGES

- English (upper-intermediate).
- Japanese (pre-intermediate).
- Vietnamese (native proficiency).
